See notes to the condensed consolidated interim financial statements.

1. Basis of Preparation

The condensed consolidated interim financial statements of Stolt-Nielsen Limited (the "Company" or "SNL"), a Bermuda-registered company, and its subsidiaries (collectively, the "Group") are prepared using accounting policies consistent with International Financial Reporting Standards ("IFRS") as adopted by the European Union and in accordance with International Accounting Standard ("IAS") 34, Interim Financial Reporting. The unaudited condensed consolidated interim financial statements should be reviewed in conjunction with the audited Consolidated Financial Statements for the year ended November 30, 2018, to fully understand the current financial position of the Group.

2. Significant Accounting Policies

The accounting policies applied are consistent with those described in Note 2 of the Consolidated Financial Statements for the year ended November 30, 2018, with the exception of the adoption of a new accounting standard discussed below and income taxes, which for the purpose of interim financial statements are calculated based on the expected effective tax rate for the full year.

Adoption of IFRS 15, Revenue from Contracts with Customers ("IFRS 15")

IFRS 15 sets out the principles to be applied to determine the measurement of revenue and timing when revenue is reflected in the Income Statement. The underlying principle is that the revenue recognition will follow the transfer of goods or services to customers at an amount that the seller expects to be entitled to in exchange for those goods or services. This new standard was applied by the Group as of December 1, 2018 and has no material effect on net profit.

The Group applied IFRS 15 using the modified retrospective approach, which requires the Group to recognise the cumulative effect of initially applying IFRS 15 to the opening balance of equity as at December 1, 2018. Accordingly, the comparative information has not been restated and continues to be reported under IAS 18 Revenue and IAS 11 Construction Contracts. The impact of the modified retrospective approach for each significant financial statement line item for the three months ended February 28, 2019 is as follows:

	Applying IAS 11 and IAS 18	*IFRS 15 Adjustments*	As Reported
Income Statement		(in thousands)	
Operating Revenue	$ 501,672	*275*	**$ 501,947**
Operating Expense	(349,350)	*(333)*	**(349,683)**
Gross Profit	89,754	*(58)*	**89,696**
Net Profit	6,633	*(58)*	**6,575**
Earnings per share	0.13	–	**0.13**
Balance Sheet			
Accrued Expenses	161,404	*2,342*	**163,746**
Shareholders' Equity	1,460,836	*(2,342)*	**1,458,494**

Generally, revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those services or goods. Transaction price for the transportation services and for other services are contractually agreed before the services are rendered and do not contain material variable components. When it is probable that the future economic benefits will flow to the Group, the recognition in the statement of income is in proportion to the stage of the rendered performance as at the end of the reporting period.

The additional disclosures required by IFRS 15 can be found in Note 4. The revised revenue recognition policy for each of the segments is set out below.

Tankers
Revenue is recognised upon delivery of services in accordance with the terms and conditions of the contract of affreightment and such services are performed overtime. For voyages in progress at the end of a period, the

uncertainty and the dependence on estimates are greater than for finalised voyages. The Group recognises a percentage of the estimated revenue for the voyage equal to the percentage of the estimated duration of the voyage completed at the balance sheet date.

Other revenue such as demurrage, additional port charges and bunker surcharges are estimated upfront and this estimate is updated at each period end and recognised overtime.

Terminals
Tank storage rentals, including minimum guaranteed throughputs, are recognised over the contractual period during which the services are rendered. These charges are mostly invoiced upfront in the month preceding the month to which such charges relate. Revenues from additional throughput fees and other ancillary charges based on actual usage are recognised at the point in time when those services are delivered.

Tank Containers
Transportation revenue is recognised upon delivery of services in accordance with the agreement with customers and is recognised overtime using a measure of progress. For tank container movements in progress at the end of a period, the uncertainty and the dependence on estimates are greater than for finalised movements. The Group recognises a percentage of the estimated revenue for the movement using the percentage of effort (“input method”) required at origin and destination. Demurrage and other revenues are uncertain elements of revenue and are recognised when incurred and generally invoiced at the end of the month.

Sea Farm
Revenues are recognised when performance obligations are satisfied by transferring control of a good or service to the customer. Where the terms of sale are free on board, revenue is recognised on dispatch of products to the customer. Revenue is recognised on delivery where the terms of sale include costs, insurance, freight and destination duty paid. The amount recorded as revenue includes all amounts recognised according to the terms of sale, including shipping and handling costs billed to customers, and after deductions for claims or returns of goods, rebates and allowances against the price of goods.

3. Reconciliation of Net Profit to Cash Generated from Operations

	For the Three Months Ended	
	February 28, 2019	February 28, 2018
	(in thousands)	
Net profit	**$ 6,575**	$ 38,780
Adjustments to reconcile net profit to net cash from operating activities:		
Depreciation of property, plant and equipment	**61,789**	66,187

5. Shareholders’ Equity and Dividends

The Group’s authorised share capital consists of 65,000,000 Common shares, par value of $1 per share, and 16,250,000 Founder’s shares, par value of $0.001 per share.

Issued shares were 64,133,796 Common shares and 16,033,449 Founder’s shares for both February 28, 2019 and November 30, 2018.

As at February 28, 2019 the number of Common and Founder’s shares outstanding were 60,541,345 Common shares and 15,135,336 Founder’s shares. As of November 30, 2018, the number of Common and Founder’s shares outstanding were 60,878,366 Common shares and 15,219,592 Founder’s shares.

Treasury Shares

In the three months ended February 28, 2019, 337,021 shares were repurchased for $4.1 million. Including these purchases, the total number of treasury shares are 3,592,451, excluding treasury shares pledged as collateral.

Treasury Shares – Transfer

The Group has pledged 7,000,000 Treasury shares as collateral for the SEB $60.0 million revolver credit facility since November 2016. In order to comply with Bermuda law, the ownership of these shares was transferred from Stolt-Nielsen Limited to Stolt-Nielsen Finance Limited, a wholly owned subsidiary. Stolt-Nielsen Finance Limited holds these shares on behalf of the lender and they are no longer included in Treasury shares. These shares are now included within Paid-In Surplus on the Balance Sheet and are considered outstanding for the purposes of the Earnings Per Share calculation, although any economic benefits and voting rights remain with the Group as long as it is in compliance with the terms of the credit facility.

Dividends

On February 14, 2019, the Group’s Board of Directors recommended a final dividend for 2018 of $0.25 per Common share payable on May 9, 2019 to shareholders of record as of April 25, 2019. The dividend, which is subject to shareholder approval, will be voted on at the Group's Annual General Meeting of Shareholders scheduled for April 16, 2019 in Bermuda. The shares will trade ex-dividend on and after April 24, 2019.

On November 15, 2018, the Group's Board of Directors declared an interim dividend of $0.25 per Common share and $0.005 per Founder's share to shareholders of record as of November 28, 2018. The total gross amount of the dividend was $13.5 million, which was classified as an interim dividend and paid on December 12, 2018.

6. Property, Plant and Equipment and Intangible Assets

During the three months ended February 28, 2019, the Group spent $31.6 million on property, plant and equipment. Cash spent during the quarter primarily reflected (a) $15.6 million on terminal capital expenditures, and (b) $5.8 million on drydocking of ships, (c) $5.2 million on tankers capital expenditures, (d) $1.5 million on the purchase of tank containers and construction at depots and (e) $3.3 million on Stolt Sea Farm capital expenditures. Interest of $0.4 million was capitalised on the new construction of terminals.

Proceeds of $0.2 million were received mainly from the retirement of tank containers and other assets.

During the three months ended February 28, 2019, the Group spent $1.5 million on intangible assets, mainly on computer software. Revaluation for foreign exchange differences on goodwill and other intangibles amounted to a loss of $0.3 million in the same period.

7. Short and Long-Term Debt

Short-term bank loans consist of debt obligations to banks under uncommitted lines of credit and bank overdraft facilities. Where the Group has the discretion to rollover its obligations for a period of more than 12 months and there is no expectation of settlement within 12 months, the debt is presented as long-term. This is the case at February 28, 2019 and November 30, 2018 for the $650.0 million reducing revolving credit facility. As of February 28, 2019, the Group had available committed credit lines of $243.3 million.

Long-term debt consists of debt collateralised by mortgages on the Group's ships, tank containers, terminals and investments, as well as $607.2 million unsecured bond financing at February 28, 2019.

	Cashflows For the Three Months Ended February 28, 2019	Cashflows For the Three Months Ended February 28, 2018
	(in thousands)	
Bank loan additions, net	**$ 24,700**	$ –
Proceeds from issuance of long-term debt	**208,570**	62,782
Repayment of long-term debt	**(199,068)**	(50,637)

During February 2019, the Group received $180.6 million under a $241.6 million fixed-rate borrowing agreement using eight ships as collateral with the remaining $61.0 million received in March 2019. See Note 13.

For the three months ended February 28, 2019, $199.1 million of debt was repaid, including a final payment of $150.0 million from a $200.0 million bridge facility, entered in 2016.

The Group remains in compliance with all financial covenants and believes that it will be able to satisfy working capital, capital expenditures and debt requirements for at least the next 12 months from April 4, 2019.

8. Fair Value Measurements for Financial Assets and Liabilities

The following estimated fair value amounts have been determined by the Group, using appropriate market information and valuation methodologies. Considerable judgement is required to develop these estimates of fair value, thus the estimates provided herein are not necessarily indicative of the amounts that could be realised in a current market exchange:

	February 28, 2019		November 30, 2018	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(in thousands)			
Financial Assets (Amortised Cost):				
Cash and cash equivalents	**$ 125,173**	**$ 125,173**	$ 64,529	$ 64,529
Restricted cash	**186**	**186**	167	167
Receivables	**221,203**	**221,203**	243,910	243,910
Other current assets	**36,060**	**36,060**	32,480	32,480
Financial Assets (Fair Value):				
Investments in equity instruments	**57,054**	**57,054**	74,205	74,205
Financial Liabilities (Amortised Cost):				
Accounts payables (excluding withholding and value-added tax)	**82,233**	**82,233**	76,755	76,755
Accrued expenses	**215,539**	**215,539**	243,455	243,455
Dividend payable	—	—	13,549	13,549
Short and long-term debt including current maturities (excluding debt issuance costs)	**2,456,249**	**2,557,340**	2,419,252	2,496,180
Derivative Financial Instruments (Fair Value):				
Assets				
Bunker swaps	4,952	4,952	4,081	4,081
Bunker call options	—	—	44	44
Foreign exchange forward contracts	254	254	91	91
Interest rate swaps	1,362	1,362	5,241	5,241
	$ 6,568	**$ 6,568**	$ 9,457	$ 9,457
Liabilities				
Foreign exchange forward contracts	660	660	1,344	1,344
Interest rate swaps	1,911	1,911	372	372
Cross-currency interest rate swaps	112,384	112,384	111,967	111,967
	$ 114,955	**$ 114,955**	$ 113,683	$ 113,683

The carrying amount of cash and cash equivalents, receivables, other current assets, account payable (excluding withholding and value-added tax payables), accrued expenses and dividend payable are a reasonable estimate of their fair value, due to their short maturity. Long-term debt in the table above excludes debt issuance costs of $26.9 million and $27.0 million, as of February 28, 2019 and November 30, 2018, respectively. The estimated value of its senior unsecured bond issues is based on traded values, while the value on the remaining long-term debt is based on interest rates as of February 28, 2019 and November 30, 2018, respectively, using the discounted cash flow methodology. The fair values of the Group's foreign exchange and bunker contracts are based on their estimated market values as of February 28, 2019 and November 30, 2018, respectively. Market value of interest rate and cross-currency interest rate swaps was estimated based on the amount the Group would receive or pay to terminate its agreements as of February 28, 2019 and November 30, 2018.

Derivatives

The Group has derivative assets of $6.6 million and $9.5 million as of February 28, 2019 and November 30, 2018, respectively and derivative liabilities of $115.0 million and $113.7 million as of February 28, 2019 and November 30, 2018, respectively. All the Group's derivative activities are financial instruments entered with major financial institutions for hedging the Group's committed exposures or firm commitments with major financial credit institutions, shipbuilders and ship-repair yards. The fair values of the Group's foreign exchange contracts and cross-currency interest rate swaps are based on their estimated market values as of February 28, 2019 and November 30, 2018, respectively. Derivative financial instruments are measured using inputs other than quoted values. There were no changes in the valuation techniques since November 30, 2018.

The Group had purchased forward contracts on 111,000 tons of bunker fuel for delivery in each of 2017 and 2018, and 72,000 tons for delivery in 2019 with initial expiration dates ranging from three to 24 months forward. The bunker contracts were marked-to-market through the Income Statement and a realised and unrealised gain of $3.4 million was recorded for the three months ended February 28, 2019.

The Group's investment in Golar LNG Limited ("Golar") and Avance Gas Holding Limited ("AGHL") is measured using quoted prices in an active market. A summary of changes in value of Investments in Equity Instruments designated as Fair Value Through Other Comprehensive Income ("FVTOCI") is summarised below:

	For the Three Months Ended	
	February 28, 2019	February 28, 2018
	(in thousands)	
Golar		
Number of equity shares	**2,330**	2,330
Percentage of shareholding	**2.3%**	2.3%
Share price as of February 28	**$20.64**	$27.02
(Loss) gain on FVTOCI	**(13,979)**	5,382
Value of investment	**$ 48,088**	$ 62,952
AGHL		
Number of equity shares	**5,479**	—
Percentage of shareholding	**8.61%**	—
Share price as of February 28	**$1.64**	—
Loss on FVTOCI	**(3,171)**	—
Value of investment	**$ 8,966**	$ —
Net (loss) gain on FVTOCI	**(17,150)**	5,382
Total value of investments in equity instruments	**$ 57,054**	$ 62,952

9. Commitments and Contingencies

As of February 28, 2019, and November 30, 2018, the Group had total capital expenditure purchase commitments outstanding of approximately $126.2 million and $111.7 million, respectively. At February 28, 2019, the total purchase commitments primarily consisted of equipment for tankers to adapt with regulations of $38.5 million, committed equity investment in Avenir LNG Limited ("Avenir LNG") for $36.0 million, terminal expansion projects of $29.6 million, tank container projects of $3.8 million and Stolt Sea Farm expansion projects of $17.8 million. Of the total purchase commitments at February 28, 2019, $110.2 million are expected to be paid over the next 12 months from existing liquidity.

Environmental

Environmental disclosures are described in Note 27 of the Consolidated Financial Statements for the year ended November 30, 2018. There have been no significant changes that have occurred since that date.

Purchase Commitments of Joint Ventures and Associates

The Group's joint ventures and associates had $215.1 million of purchase commitments on February 28, 2019. This amount includes two Avenir LNG newbuildings aggregating $58.9 million, which are with recourse to the Group. The remaining $156.2 million are non-recourse to the Group and includes $135.3 million relating to two 20,000 cbm LNG carriers and the Higas terminal, $17.3 million for the terminal joint ventures, $2.7 million for tanker joint ventures and $0.9 million for tank container joint ventures.

Of the total purchase commitments at February 28, 2019 for joint ventures and associates, $110.7 million is expected to be paid over the next 12 months and financing has been arranged by the joint venture for $3.7 million. The remaining terminal, tank container and Avenir LNG projects will be paid out of the existing liquidity of those joint ventures and external financing yet to be raised.

Avenir LNG

The newbuilding contract for the first two 7,500 cbm LNG carriers that was announced on May 24, 2017 is now consolidated into Avenir LNG. Deposit of $15.5 million have been made on these ships. These ships will be built by Keppel Singmarine with expected delivery in late 2019 and early 2020. The total cost for both ships is approximately $80.0 million, including site team costs and capitalised interest.

In the fourth quarter of 2018, Avenir LNG also entered into a contract with Sinopacific Offshore Engineering, Nantong, China, for two 20,000 cbm LNG carriers. On January 25, 2019, Avenir LNG made the first progress payments of $11.2 million for these two 20,000 cbm small-scale LNG carriers. The ships are expected to be delivered in 2021.

10. Legal Proceedings

The Group is party to various legal proceedings arising in the ordinary course of business and in cases where it believes the likelihood of losses are probable and can be estimated, provisions would be recorded for those legal cases. Disclosure of legal proceedings has been described in Note 28 of the Consolidated Financial Statements for the year ended November 30, 2018. There have been no significant changes to any ongoing legal proceedings since that time, except as discussed below. The Group believes that the ongoing legal proceedings are unlikely to have a material adverse effect on its business or financial condition.

Stolt Tank Containers BV is involved in a civil action as a result of a fire on the *MSC Flaminia*. The Phase 2 trial for this matter was completed in August 2018. The US District Court for the Southern District of New York delivered a judgement on September 10, 2018, which held the Group jointly liable with Deltech for the incident where the counterparties are alleging damages of $180.0 million, excluding interest. The claim is covered by insurance and the Group has recorded a deductible of $0.3 million for this claim. The judgement has been appealed by the defendants, Stolt and Deltech. The final phase of the trial to assess the quantum of damages is likely to proceed in 2020.

On March 12, 2016, a ship pilot sustained injuries while disembarking of the *Stolt Invention* and landed on the deck of the attending pilot boat. The ship pilot sustained multiple injuries and filed suit in the US federal court in the Southern District of New York on January 4, 2019, claiming for lost future earnings net of taxes. On March 15, 2019, the parties agreed to settle the claim and this settlement has no financial impact to Group.

To the extent that legal costs are not covered by insurance, the Group expects to incur such costs until these matters are resolved.

General

The ultimate outcome of governmental and third-party legal proceedings is inherently difficult to predict. The Group's operations are affected by international and domestic environmental protection laws and regulations. Compliance with such laws and regulations may entail considerable expense, including ship modifications and changes in operating procedures.

11. Seasonality

Sales of seafood are generally stronger in the first quarter of the year as this coincides with increased sales over the Christmas and New Year holidays. Stolt Tank Containers shipment volumes may be negatively affected in the first quarter by the seasonality inherent in their key customers' businesses. Stolt Tanker's results can be negatively affected in the winter months in the Northern Hemisphere, because of weather conditions such as fog, ice and winter storms that cause port delays, congestion and waiting time. There is no significant seasonality in any of the other businesses.

12. US Tax Reform

On December 22, 2017, the US enacted the Tax Cuts and Jobs Act ("the Act"), which reduced the US federal corporate income tax rate from 35% to 21%, among other provisions, as of the effective date January 1, 2018. In the first quarter of fiscal year 2018, a deferred tax credit of $24.9 million was recorded in the Income Statement offset by a $22.2 million reduction in the US deferred tax liability and a tax charge to Other Comprehensive Income of $2.7 million relating to the US defined benefit pension scheme.

13. Subsequent Events

On March 1, 2019, a further 17,549 shares have been repurchased for $0.2 million under the share buy-back program, leaving $8.8 million available for further purchases.

On March 17, 2019, there was a significant industrial fire at Intercontinental Terminals Corporation, which resulted in the close of the Houston Ship Channel and related disruptions to the Group's operations. At this stage the financial impact on the Group has not been determined.

On March 20, 2019, the Group received the balance of $61.0 million against two ships in the $241.6 million fixed-rate borrowing agreement arranged in February 2019.

On April 1, 2019, the Group sold the rail business in North America, which was included within the Terminals segment. This business is based in Houston, United States, and includes freight management services and rail car leasing for bulk-liquid transport. The sale of this business did not have a material impact on the Group's revenue, net profit or net assets.

STOLT-NIELSEN LIMITED

RESPONSIBILITY STATEMENT

We confirm, to the best of our knowledge, that the condensed set of financial statements for the period December 1, 2018 to February 28, 2019 has been prepared in accordance with IAS 34 as adopted by the European Union and gives a true and fair view of the Group's financial position and profit or loss and cash flows as a whole.

The maintenance and integrity of the Stolt-Nielsen Limited website is the responsibility of the Directors; the work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website.

Legislation in Bermuda governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.
